## Junior Full-stack Developer

---

## PROFESSIONAL SUMMARY

Professional with 2 years of experience in the market, working in the areas of developer and programmer.

Top 10 in São Paulo in the São Paulo Skills 2024 competition.

Support in the creation and implementation of a secretary system, including features for schedule control, payment management, and user administration.

I am proficient in HTML, CSS, JavaScript, PHP, React, Node.js, Laravel, CodeIgniter, Python, Java, MySQL, and version control with Git and GitHub. I also use tools such as Docker, Postman, Tailwind CSS, Bootstrap, WordPress, Figma, VS Code, and Discord for communication and productivity. I work with agile methodologies such as Scrum and Kanban, and I have ease in creating responsive interfaces, RESTful APIs, database integrations, performance optimization, and complete end-to-end solutions.

Key skills: strong programming logic, problem-solving, good communication, teamwork, adaptability, analytical ability, resilience, strategic project planning.
